

## Year 5 Autumn 2

During this half term, the Year 5s have all worked hard across a range of different curriculum areas. Amazingly, this fabulous work has all been completed at home. You can see some brilliant pieces showing off our knowledge of our Geography theme - Russia and some displaying what we learned at our recent visit to Ewden Water treatment. There is also some brilliant work displaying how we stay safe on the roads and how we can deal with bullying behaviour. Well done Year 5 - you have produced some fantastic work!
