

Year 2 Website Photos

In Geography this term we have used atlases to explore the United Kingdom. We have learnt about each country and its capital city as well as the physical and human features of the landscape.

We have also used atlases to find out about the continents and oceans. We have made comparisons, learnt about the layers of the ocean and researched the impact of plastic pollution.

In English, we have enjoyed spotting the signs of spring. We have collected images and vocabulary to build up ideas and then used our ideas to create some wonderful spring themed acrostic poems.
