Mountains and Rivers

During our mountains and rivers topic, we learnt about the water cycle and the processes involved in this. We have studied how rivers and mountains are formed and have used atlases to locate different mountain ranges around the world.

Art—Collage

This half term, Year 4 have been learning about collage. We began by studying and evaluating collages from Kurt Schwitters and Derek Gores. We then practised different collage techniques such as overlapping, so that we could create layers and texture on our work. Finally, we produced a mountains and river collage using different techniques such as glue and applique to join our materials together.
