

Art and Design - Y1 Summer - Construction and Form

Key vocabulary to remember and use in your learning

Word	Definition
construct	To build or make.
bond	To join or connect items or materials together by pressing, melting or sticking.
natural materials	Materials which can be found in the natural world; they come from the ground.
pinch	To grip something tightly between your finger and thumb. This can create different shapes in a modelling material.
plasticine	A soft modelling material.

Andy Goldsworthy has used different coloured leaves to create this piece of artwork.

Animals and Nature

Sophie Woodrow's artwork is inspired by animals in the world around us.

Key knowledge to know and use

Artists are inspired by the world in which they live. Many artists base their work on the natural world. Eg. Animals and plants.

Artists can use different types of modelling material to construct 3D artwork. Some use items from the natural world, others use modelling clay or plasticine.

Andy Goldsworthy is an artist who creates work using materials from the natural world. He cuts and places items carefully to create his artwork.

Sophie Woodrow is an artist who uses modelling materials to create 3D artwork. She is inspired by the animals in the world around us.
