

Art and Design - Y3 Spring - Construction and Form

Key vocabulary to remember and use in your learning

Word	Definition
ceramics	The name for objects produced using materials like clay. The raw material is shaped and heated to high temperatures in a kiln. It hardens and permanently sets in shape.
form	Any three-dimensional object. A form can be measured from top to bottom (height), side to side (width) and front to back (depth).
manipulate	To handle or control in a skilful manner.
roll	In Art, this is a technique to create a cylinder or sphere.
slip	Slip is liquid clay, clay with a lot of water added to it. It can be used as a kind of glue to join one piece of clay to another.

The Weeping Woman, by Pablo Picasso.

Picasso painted the Weeping Woman in 1937. The painting represents extreme sadness. It is an example of how artists use their work to show feelings. Picasso was trying to show what pain and sadness feels like.

Faces

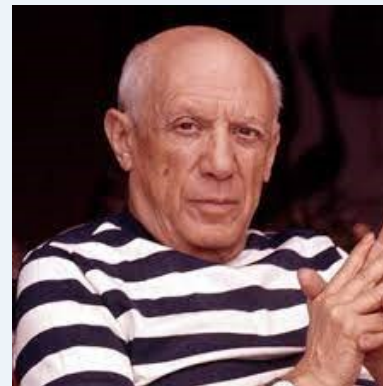

Key knowledge to know and use

Cubism is a style of art that began in the 1900s. The artists who developed cubism believed that work should not present a realistic view of the subject. They tried to show the object from many angles all at the same time through their work.

Pablo Picasso is an artist and sculptor, who is famous for developing cubism. He was born in Spain in 1881.

Many modelling materials are used to create 3D forms of artwork. Clay is a material, which comes from the ground, and can be manipulated and carved to create forms. It hardens when it is dry.

Pablo Picasso liked to experiment and try out new ideas, which is important if you are an artist, because the world is always changing. Picasso helped us see the world in new ways.
