

# Geography Year 1 Summer — Our School and its Grounds

## Key knowledge to know and use

Abbey Lane Primary School is located in the city of Sheffield and was built in 1929.

Abbey Lane School will look different on an aerial map .

On our school grounds there's some human features e.g.the buildings, car park, playgrounds.

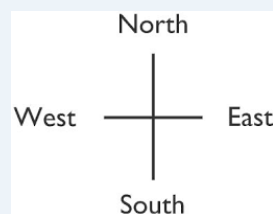

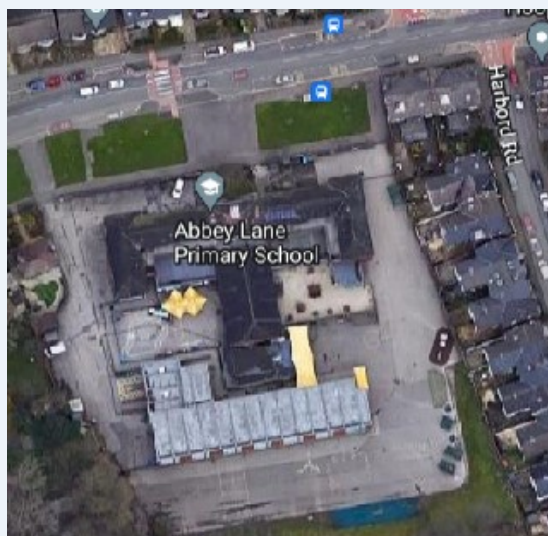

On our school grounds there's some physical features e.g.the woodland, vegetation

Some parts of our school have been there longer than other parts of the school

The location of features and routes on a map can be described using words like near and far, left and right. Simple compass points like north, south east and west can also be used.

Our school is different to our home.

Our school was built in 1929 and a new building was added in 2011.

On an aerial map, Abbey Lane School looks like this from above.

All the buildings, the playgrounds, the car park and the woodland can be seen.

## Key vocabulary to remember and use in your learning

Word	Definition
human feature	Made by humans E.g. city, school, shops, church, houses, office.
physical feature	Not made by humans E.g. woodland, hill, vegetation, soil.
map	A diagram/ picture of an area of land or sea which shows the physical and human features of the area.
