Toys

Key vocabulary to remember and use in your learning

baby	A human under one year old.
toddler	A human aged between one and three years old.
materials	What something is made out of.
plastic	A hard wearing, man-made material.
electronic	Something that needs a plug or batteries to work.
suitable	When something is the right fit for a group.
teddy bear	A soft, usually furry, bear-shaped toy.

Key knowledge to know and use

In the past, people thought girls and boys should play with different toys. The wooden soldiers would have been for the boys to play with, and the china doll would have been for girls. Luckily, we know girls and boys can enjoy the same toys now!

Nowadays, lots of our toys are made from plastic and are often electronic. In the past, toys were usually made from wood or fabric.

Grandparent's toys (1960s)

Parent's toys (1980s)

Our toys (2020s)
