

► Curriculum enhancement

At Abbey Lane, we value the importance of real-life, hands on experiences and the benefit they have in deepening and broadening the understanding of the curriculum for all our pupils. Whether this is through an educational visit, a connection to our local community or having visitors in school, these experiences enhance our pupil's learning and ensure they remember more about the subject they study.

Over the last year, our pupils have had a range of interesting and varied experiences including visiting the Emergency Services Museum, Cleethorpes, Ecclesall Woods, Magna, Leeds Armouries, the Lyceum Theatre and the Holocaust Museum.

We celebrate and learn about a variety of religious festivals in assembly, as well as attending services at St Chad's Church. We welcome to our school local musicians, members of the emergency services and live animal encounters.
